

GFE10PLC (Canopied)

Available as an open set: **GFE10PLO**

Engine	Alternator	Model
Perkins 403D-11G	Leroy Somer TAL-A40-C	GFE10PLC (Canopied)

50Hz	1500rpm	3-Phase	Power factor Factor $\Phi = 0.8$	Emissions N/A
------	---------	---------	--	-------------------------

Ratings	Prime Power		Standby Power		Rated current	Fuel consumption
Voltage	(PRP)		(ESP)		Amps	@100% load
(V)	kWe	kVA	kWe	kVA	(A)	L/h
400	7.2	9	7.9	9.9	13	3

Ratings All three phase generator sets are rated at 0.8 power factor.
All single-phase generator sets are rated at unity or 1.0 power factor.

Prime output This rating is applicable for supplying continuous electrical power at variable load.
There is no limitation to the annual hours of operation and this model can supply 10% overload power for 1 hour in 12 hours.

Standby output This rating is applicable for supplying electrical power (at variable load) in the event of a utility power failure. No overload is permitted on these ratings.

The above ratings are in accordance with ISO8528-1 and ISO3046-1. Standard reference conditions: 25°C, 100m A.S.L., 30% relative humidity.

Engine

Perkins 403D-11G

		Units	
General performance	Frequency	Hz	50
	Engine speed	r/min	1500
	Number of cylinders / arrangement		3 cyl / vertical in-line
	Displacement	Litres	1.131L
	Aspiration		Naturally aspirated
	Combustion system		Indirect injection
	Governor type		Mechanical
	Bore / stroke	mm	77 x 81 (3.03 x 3.18 in)
	Compression ratio		23:01
	Engine power (net)	kWm	Prime: 8.4 Standby: 9.2
Cooling system		Water cooled	
Rotation		Anti-clockwise viewed on flywheel	
Fuel system	Fuel consumption at 110% Prime Power	Litres/hour	3.6
	Fuel consumption at 100% Prime Power	Litres/hour	3
	Fuel consumption at 75% Prime Power	Litres/hour	2.3
	Fuel consumption at 50% Prime Power	Litres/hour	1.7
	Standard fuel tank capacity	Litres	65L
Air system	Air inlet		Mounted air filter
	Air filter type		Dry
Fuel and fuel system	Mechanically governed		YES
	Cassette type fuel injection pump		YES
	Split element fuel filter		YES
Oil system	Total oil system capacity	Litres	4.9
	Maximum sump capacity	Litres	N/A
	Wet sump with filler and dipstick		YES
	Spin-on full-flow lube oil filter		YES
Cooling system	Total system capacity		
	- With radiator	Litres	5.2
	- Without radiator	Litres	N/A
	Thermostat operation range	°C	up to 40°C
	Maximum top tank temperature	°C	N/A
Electric system	Electrical system voltage	V	12
	Battery		Maintenance-free
	Connecting cables		Available as option
Available options	Battery charger		
	Engine water heater		
	Battery isolator switch		

Alternator

Leroy Somer TAL-A40-C

		Units	
General data	Manufacturer / brand		Leroy Somer
	Model		TAL-A40-C
	Coupling / number of bearings		Flexible Disc / Single Bearing
	Phase / Poles		3-Phase / 4-Pole
	Power factor		Cos Φ = 0.8
	AVR Regulation		Yes
	Voltage Regulation		±1 %
	Insulation class		H
	Drip proof		IP23
	Excitation		Shunt
	Altitude	m	≤1000
	Overspeed	min -1	2250

GFE Controller Summary

Controller model / Deepsea DSE	Available: DSE4520	Optional: DSE6110/20	Optional: DSE7310/20	Optional: DSE8610/20

Enclosure / Canopy

Sound-attenuated or open option

“Ensure a quieter life with our sound attenuation system.”

Features

Extremely rugged and highly corrosion resistant construction

Body made from 1.5mm sheet steel components with powder coating

8-12 hours built-in fuel tank integrated into the skid-mount base

Excellent design and craftsmanship

Compact structure and longer service life

Residential silencer

Black powder coated locks and hinges on steel are tested for corrosion resistance

External refuelling port

External paint carries a unique 12 month non-corrosion warranty

Easy commissioning and maintenance

Separated and isolated control module with easily reachable electrical power connections

Side doors allowing 180° opening for easy accessibility

Radiator fill access through cover in canopy roof

Lube oil drain and radiator drain

Manual lube oil pump provided for easy maintenance

Security and safety

Earth leakage protection

40-50mm non-flammable sponge inside

Control panel viewing window in a lockable access door

Emergency stop button mounted on canopy exterior

Fuel fill and battery can only be reached via lockable access doors

Exhaust silencing system enclosed for operator's safety

Efficient management of cooling air to avoid high water temperature

Transportability

Top access lifting points for crane lifting

Fork lift pockets for easy moveability

Overall dimensions, weight and noise

Frame type	Dimensions	Weight	Base tank @100% load		Noise level
	(L x W x H) mm	kg	Hours	Litres	dB(A) at 7m
Canopied	1950x770x1136	560	TBC	65	TBC
Open	1350x500x1090	335	TBC	53	TBC

Automatic Transfer Switch

A.T.S - 4 Poles

GFE offers as an optional accessory, not only a changeover switch but also an integrated mains detection and switch system for your 24 hour power protection. The system enables automatic start-up and operation of the generating set in the event of a mains power failure, overvoltage or loss of a mains automatic retransfer once it comes back.

System advantages

Automatically transfer and re-transfer load from main power to gen-power without operator intervention (both automatic and manual)

ATS Controller (AMF function), seamless integration with all GFE ATSS

Available from 32 - 4000A

Available in standard, bypass isolation and service-entrance configurations

Configurable in open, closed and programmed transition operating modes

Designed to interface seamlessly with GFE generators and switchgear

Drip proof IP42 enclosure

Easy installation: wall-mounted and floor standing

*image for illustration purposes only, actual product may differ

Warranty

GFE distributors, dealers or authorized representatives have warranty providing the operator performs a start-up within 6 months of the date of shipment from the factory, warranty coverage will begin on the start-up date (registering the start-up date to GFE within 6 months is essential and can be enforced). This warranty does not apply to malfunction caused by damages, unreasonable use, misuse, repair or service by unauthorized persons, or normal wear and tear. Warranty is supplied strictly in accordance with GFE's terms and conditions of sale and as per the warranty manual available on request.

Warranty coverage

Generators used with commercial utility source: One (1) year or 1000 hours (whichever occurs first) from date of shipment from the factory or registered start-up date.
